Basic Info

The Terrinoth rulebook is used for most species, statblocks, etc. All races in Terrinoth are valid species in Iroe. Ghuls use the Orc statblock.

Additional species which don't yet have stat blocks:

- Dragonborn
- Tiefling-equivalent
- Beastfolke

Additionally, as the Beastfolke have developed some basic firearms, those don't yet have statblocks in Terrinoth.

Magic Style Origins

The following species discovered the following kinds of Genesys magic:

- Elves: Verse
- Orcs: Primal
- Dwarves: Runes
- Humans: Aracana and Divine

Note that now any species can use any of these forms of magic, this is just who first discovered it.
