Shotguns

Mastiff

> The mastiff is a special type of gun called a shotgun. Rather than firing a swarm of shots, it fires two wide rows of 4 bullets each, which can be shot closer together with ADS. It deals 80 HP per shot, ignoring point-blank shots. Compared to most shotguns, the Mastiff can be used at long ranges. You will just have to adjust your shots to accommodate the slower bullet speeds. you can atach the HCOG ranger to it to get the zoom in for the ranged attacks.
